

Introduction to Computer Applications Progressive Era Presentation Rubric

Directions:

Your portfolio will be assessed using the following criteria based on lesson objectives. Use this rubric along with the portfolio instructions and checklist to guide you as you create your portfolio project.

Criteria		1	2	3	4	Score
Create a Microsoft PowerPoint presentation or video about one aspect of the Progressive Era using content from Library of Congress website.	Research	Presentation shows little evidence of research conducted. Required information is scant or absent.	Presentation shows some knowledge of topic, but lacks thorough research and/or contains some inaccuracies.	Presentation offers a satisfactory summary of the topic.	Presentation is well-researched and engaging. Shows evidence of careful research and thought. Skillfully summarizes information from the source.	___/4
	Presentation	Presentation is incomplete, unclear, inaccurate, and/or too short.	Presentation has unevenly developed slides.	Presentation is satisfactory.	Presentation is clear and the appropriate length (5–7 slides). Presentation flows smoothly.	___/4
Incorporate relevant images found through a search of the Library of Congress prints and photographs database.		Some images are absent or irrelevant to presentation topic.	Contains correct number of images, but some are irrelevant.	Contains the appropriate number of images on the topic.	Images are well-chosen and from the Library of Congress database. Images enhance presentation content.	___/4
Final presentation should be in the form of a PowerPoint presentation or video that contains transitions, animations, text boxes, and a concept map made from SmartArt.	Transitions, Animations, Text boxes	Does not contain required and correct use of transitions, animations, and text boxes.	Contains some of the required elements, but some are missing and/or some are used incorrectly.	Contains all required transitions, animations, and text boxes.	Contains all required transitions, animations, and text boxes and uses them to enhance presentation.	___/4
	Concept Map	Concept map contains factual inaccuracies and/or does not use SmartArt.	Concept map uses SmartArt but contains one or two inaccuracies or is either too brief or not concise enough.	Correctly summarizes an aspect of the topic using SmartArt. All information is correct and not too detailed (or too short).	Correctly summarizes an aspect of the topic using SmartArt. All information is correct and not too detailed (or too short). Concept map is attractive and enhances the presentation.	___/4

Total Points: ___/20
